

Google Developers Student Club  
Techno India University

**Introducing**

# plot2deploy

GDSC TIU Hackathon is here!

# Theme

Teams have to build Machine Learning Models that enhance their lives as a university student.

For e.g. A spam filter that keeps your emails organised, a recommendation system that suggests you the movies you're going to stream with your friends, a sentiment analysis model that guides you to the perfect dining experience etc.

## T I M E L I N E

**Announcement**  
**04-03-2024**

**Team Details Submission**  
**11-03-2024**

**Final Event**  
**16-03-2024**
